

# Promise

Carsie Blanton

Verse  
1 & 2

When we fell in love it was magical, magical stories came out of your mouth. When  
You thought that our love was infallible, a calm you could keep 'till the day that you die, you fell

When we fell in love it was typical, we couldn't see 'till we began to fall out, when  
Prey to a dangerous miracle, you trust me so much when you couldn't say why, and

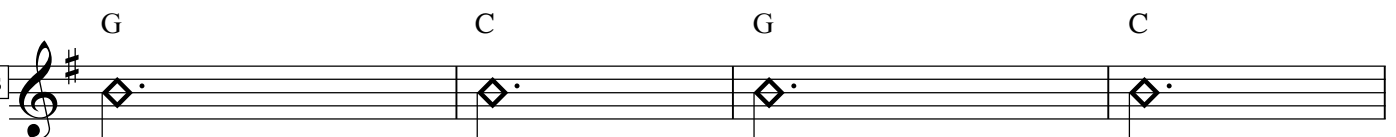

Suddenly you feel afraid, the things that you said could be making your grave, so you  
What an unpleasant surprise, the truths that you told me turned into lies so you

take it back, take it back take it all back

Chorus

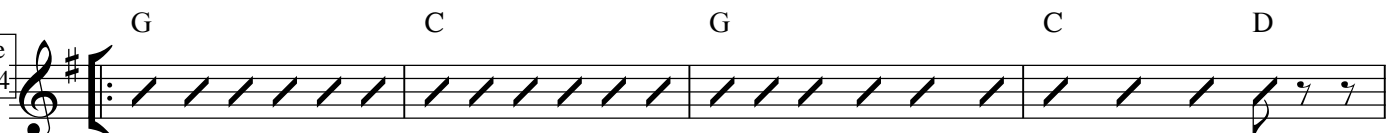

Oh, make me a promise\_ Oh,\_ make me a promise\_\_

Oh, make me a promise that you can keep Well I

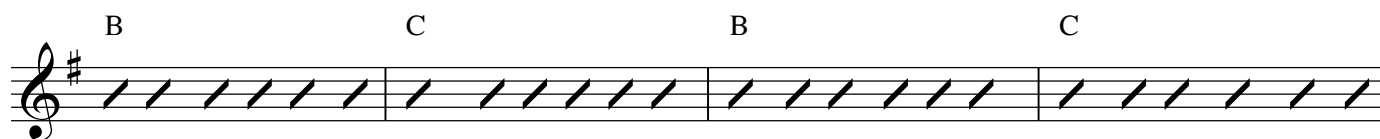

Verse  
3 & 4

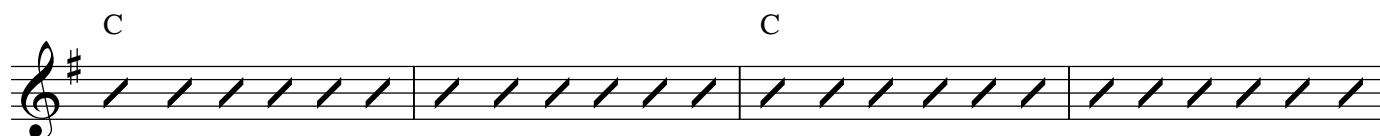

Love you so much it's illogical, but baby I can't say that I always will, and  
All that we're asking is certainty to armour these hearts that have never been safe but I

I don't think it would be ethical, to give you a heart that might never sit still, so I  
Know it takes more than security to open a heart that is empty of faith, so

Read you a list of my crimes, stolen your comfort now hundreds of times and you  
I take you into my arms, confess to you I cannot keep you from harm, but I

Want it back, want it back, want it all back you say  
Love you so, I love you so, I love you so,

Chorus

Oh, make me a promise  
Oh, here is a promise

Oh, make me a promise that you can keep  
Oh, here is a promise that I can keep

Well I

Out Chorus

Oh, here is a promise

Oh, here is a promise that I can keep
