Carsie Blanton

Intro

verse 1 & 2

Chorus

Bridge

I promise I can take it, if promising will make you just lay it all out on the floor. If you were gonna fake it or you'd rather play it safe, say the word and I'll show you the door.

I don't wanna be lonely, no, I don't wanna be lonely no more. The truth is a part of me.

knows, it rattles and crows from under my ribs. Oh say it ain't so, or if it is so, baby say that it is come on and say what it is, open your mouth... give it away, there ain't no way stone that sits on your tongue, and when I'm alone... out I'm never so numb... sayin' what you wanna say so.
mouth, give it to me keeping it

shut is a kick to the gut, so how bad can it be?

I promise I can take it, if promising will make you just lay it all out on the floor

I don't wanna be lonely, no, I don't wanna be lonely no more
